4270 / Large solid casted lifting bag w/ handles

COLOR:

Solid casted bucket bag. This bag is large, durable and is a perfect solution for very heavy content with pointy edges. The bag can be difficult to handle and transport while on the ground and EMG therefore offers the solution of adding handles and/or wheels.

- **Dimensions (open):** 70 x 40 x 80 cm (L x W x H)
- **Dimensions (closed):** 70 x 40 x 80 cm (L x W x H)
- **Lifting height:** 98 cm
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Material (bottom):** PEHD
- **Material (webbing):** 50 mm polyester

- The bottom is made of hard plastic to keep the bag in shape and prolong the lifespan of the bag.
- It's very strong and is great for tools and spare parts with sharp edges.
- The bottom lets in light, for easier operation inside the bag.
- The two wings of the bag can be folded inwards and kept in place by a small carabiner. The carabiner comes with the bag.
- A strong and foldable handle is placed in each end of the bag.
- It has a double velcro closing mechanism.
- A transparent velcro pocket for documentation is placed on the front of the bag. The pocket is detachable by velcro.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
