EN 1492-1

ISO 21898

Advanced first aid backpack with multiple compartment combinations. This first aid bag functions as a backpack and a certified lifting bag.

- **Dimensions (open):** 25 x 18 x 65 cm (L x W x H)
 - **Dimensions (closed):** 25 x 18 x 65 cm (L x W x H)
 - **Lifting height:** 85 cm
 - **Material (main):** Tarpaulin
- Has one handle on the top for easy handling.
 - The lifting strap is made from high quality polyester webbing.
 - The bag is closed by zipper which is protected by a velcro cover.
 - On the front you will find a transparent pocket for documentation.
 - The shoulder straps are hideable for safe hoisting.
 - Inside, you will find mesh pockets in both ends of the bag.
 - A total of 5 removable compartments are placed inside. These are attached by velcro and can be placed in any order you like.
 - Four of these compartments are all transparent for easy visibility. They are closed by velcro. The last compartment is a padded cylinder-shaped protection bag specially designed for an oxygen bottle.
 - The bottom of the outside is covered by DOT PVC for protection.
